**STATISTICAL SCIENCE LIBRARY**

B.M. COLOMBO
GALILEO DISCOVERY

is a new and innovative tool which allows the research of books, journals, and articles owned by the libraries of Padua. Using GalileoDiscovery and its advanced filters, you can quickly find the information you are looking for: the availability of copies, in which libraries you can find them, their position on the shelf and whether borrowing is allowed.

LIBRARY COLLECTIONS

The statistical sciences library collections cover the following subjects: Statistics, Demography, Mathematics, Computer Science, Econometrics.

A special section called "statistical data" offers journals and books edited by ISTAT and other national and international statistical offices (European Union, ONU, etc.) also in electronic format.

DIGITAL LIBRARY

Library collections include many electronic books, e-journals and disciplinary databases.

To access the Digital Library: https://bibliotecadigitale.cab.unipd.it/en

INTERLIBRARY LOAN (ILL)

Interlibrary loan allows you to borrow a book from external libraries when it is not available in the Padua libraries. This service requires an additional fee.

DOCUMENT DELIVERY

This service supplies users with copies of documents, such as journal articles, book chapters, etc. if they are not available in Padua collections.

PURCHASE REQUEST

Institutional users may suggest purchases by authenticating with Single Sign On (SSO) and filling out the online form. The suggestions will be submitted to the Library Committee for approval.

OFF-CAMPUS CONNECTION (AUTH-PROXY)

Off-campus connection via Auth Proxy allows users to access the Digital Library collections.

Even from home!

PRINTS AND COPIES

The myPrint service allows you to make copies using any of the printers available in the libraries and copying centres of the University using your badge.
Info: http://unipd.albamyprint.it or in the flyer available at the front-office.

WI-FI CONNECTION

You can connect your personal devices to the international Wi-Fi network Eduroam.
